Summary Section – Beacon Dynamic Allocation Fund

Investment Objective. The Beacon Dynamic Allocation Fund (the “Fund”) seeks total return through a combination of capital appreciation and income.

Fees and Expenses of the Fund. This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below. You may qualify for sales charge discounts on purchases of Class A shares if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund. More information is available from your financial professional and in the section entitled **How to Purchase Shares** on page 15 of the Fund’s Prospectus and in **Purchase and Redemption of Shares** on page 72 of the Statement of Additional Information.

Shareholder Fees (fees paid directly from your investment)	Class A	Class C	Class I
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	4.75%	None	None
Maximum Deferred Sales Charge (Load) (as a % of the lower of original purchase price or redemption proceeds)	None	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None	None	None
Redemption Fee	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	Class A	Class C	Class I
Management Fees	0.95%	0.95%	0.95%
Distribution and/or Service (12b-1) Fees	0.25%	1.00%	None
Other Expenses ⁽¹⁾	0.68%	0.69%	0.69%
Interest Expense	0.00%	0.00%	0.00%
Remaining Other Expenses	0.68%	0.69%	0.69%
Acquired Fund Fees and Expenses ⁽²⁾	0.33%	0.33%	0.33%
Total Annual Fund Operating Expenses	2.21%	2.97%	1.97%
Fee Waiver ⁽³⁾	(0.48)%	(0.49)%	(0.49)%
Total Annual Fund Operating Expenses After Fee Waiver ^(1,3)	1.73%	2.48%	1.48%

(1) The Beacon Dynamic Allocation Fund, a series of Northern Lights Fund Trust (the “Predecessor Fund” or “Predecessor Dynamic Fund”), reorganized into the Fund following the close of business on February 13, 2026. Other Expenses are based on estimated amounts for the current fiscal year.

(2) Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. The operating expenses in this fee table do not correlate to the expense ratio in the Fund’s financial highlights because the financial statements include only the direct operating expenses incurred by the Fund, not the indirect costs of investing in other investment companies.

(3) The Adviser has contractually agreed to waive its management fees and to make payments to limit Fund expenses, until February 28, 2028, so that the total annual operating expenses excluding (i) any front-end or contingent deferred loads; (ii) brokerage fees and commissions; (iii) acquired fund fees and expenses; (iv) fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses); (v) borrowing costs (such as interest and dividend expense on securities sold short); (vi) taxes; and (vii) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser)) of the Fund do not exceed 1.40%, 2.15% and 1.15% for Class A, Class C and Class I shares, respectively. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years (within the three years from the date when the amount is waived or reimbursed) if such recoupment can be achieved within the lesser of the expense limits in effect at the time of the waiver or the then-current expense limits. This agreement may be terminated only by the Trust’s Board of Trustees, on 60 days’ written notice to the Adviser.

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The Example takes into account the Expense Cap for the Fund which are only reflected through February 28, 2028. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

Class	1 Year	3 Years	5 Years	10 Years
Class A	\$642	\$1,089	\$1,562	\$2,863
Class C	\$251	\$873	\$1,519	\$3,255
Class I	\$151	\$571	\$1,017	\$2,256

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Example or in the Example, affect the Fund's performance. For the fiscal year ended July 31, 2025, the Predecessor Fund's portfolio turnover rate was 142% of the average value of the portfolio. During the fiscal period ended February 28, 2026, the Fund's portfolio turnover rate was 34% of the average value of the portfolio.

For more information regarding the Predecessor Fund, please see the discussion under "Performance Information."

Principal Investment Strategies. The Fund invests predominantly in exchange-traded funds ("ETFs") that each invest primarily in domestic or foreign (1) equity securities, (2) fixed-income securities, (3) alternative/specialty securities or (4) cash equivalents. The Fund defines equity securities to include ETFs that invest primarily in equity securities, such as common and preferred stocks. The Fund defines fixed-income securities to include ETFs that invest primarily in fixed-income securities, such as bonds, notes and debentures. The Fund defines alternative and specialty securities to include ETFs that invest in commodities, foreign currencies and real estate investment trusts ("REITs"), as well as inverse ETFs (ETFs designed to produce returns that are opposite to those of the index to which they are linked). Pursuant to the Fund's principal investment strategies, the Fund invests its assets across multiple asset classes by investing in ETFs that each invest primarily in securities of domestic issuers of varying market capitalizations. While the percentage invested in each asset class will change over time, the Fund invests primarily in equity securities and fixed income securities (as defined above). With respect to fixed income securities, the Fund invests primarily in those rated BBB- or higher by Standard and Poor's Rating Group or similarly rated by another nationally recognized statistical rating organization ("NRSRO"). The Fund may invest in fixed income securities of any credit quality (including high yield or "junk" bonds) and any maturity. Under normal market conditions, the Fund invests at least 80% of its assets (defined as net assets plus any borrowing for investment purposes) measured at the time of purchase in ETFs.

Beacon Capital Management, Inc., the Fund's investment adviser ("Beacon Capital" or the "Adviser"), uses a tactical asset allocation strategy based on a proprietary macroeconomic model and investment philosophy to select assets that it believes have the potential to generate the most appropriate risk-adjusted returns in the given economic environment. In managing the Fund's portfolio, the Adviser may engage in frequent trading of securities, resulting in a high portfolio turnover rate.

The model is based upon the Beacon Economic Index® (formerly Astor) which takes economic data points focused on: (1) employment and (2) output to determine what the Adviser believes is the current level of the economy. Additional indicators such as market conditions and price momentum are also used. The Adviser uses these outputs to allocate assets and rebalance the Fund's investment portfolio at an appropriate level for the economic and market risk environment with the goal of achieving positive returns throughout economic cycles. The Adviser seeks to use macroeconomic analysis as a risk control in order to mitigate the impact of large negative returns (commonly referred to as drawdowns) typically experienced during periods of weak economic activity.

The Adviser anticipates rebalancing the Fund's portfolio based upon the Adviser's determination of changes in the economic cycle as well as other proprietary indicators. By using economic cycle-driven rebalancing, the Adviser seeks to provide positive returns during economic expansions by increasing the portfolio allocation to long equity ETFs linked to broad market indices, such as the S&P 500 Index. During economic contractions, the Adviser will utilize defensive positioning, by increasing portfolio allocations to cash, fixed-income ETFs and alternative/specialty ETFs including those providing inverse market exposure. Inverse ETFs are designed to hedge portfolio investments by producing results opposite to market trends. Inverse ETFs seek daily investment results, before fees and expenses, which correspond to the inverse (opposite) of the daily performance of a specific benchmark, such as the S&P 500 Index. Alternative or specialty ETFs are selected to provide positive returns and diversification. These may include ETFs linked to commodities, such as oil or gold, as well as ETFs focused on specific industries such as real estate or focused on economic segments such as foreign currencies.

The Trading Sub-Adviser is responsible for executing portfolio transactions and implementing the Adviser's decisions for the Fund.

Principal Investment Risks: Remember that in addition to possibly not achieving your investment goals, you could lose money by investing in the Fund. The following describes the principal risks the Fund may bear directly and indirectly through ETFs.

- **Alternative and Specialty Assets Risk:** The Fund may purchase ETFs that invest in "alternative asset" or "specialty" market segments. The risks and volatility of these investments are linked to narrow segments of the economy such as commodities, real estate, or currencies. Inverse ETFs limit the Fund's participation in certain market gains.
- **Commodity Risk:** Investing in the commodities markets may subject the Fund to greater volatility than investments in traditional securities. Commodity prices may be influenced by unfavorable weather, animal and plant disease, geologic and environmental factors as well as changes in government regulation such as tariffs, embargoes or burdensome production rules and restrictions.
- **Credit Risk:** Debt issuers may not make interest or principal payments, resulting in losses to the Fund. In addition, the credit quality of securities held by an ETF may be lowered if an issuer's financial condition changes. These risks are more pronounced for securities at the lower end of the investment grade credit quality spectrum, such as those rated BBB- or lower by Standard & Poor's Ratings Group or another NRSRO.
- **Currency Risk (Domestic and Foreign):** The risk that material changes in currency exchange rates will negatively affect securities denominated in, and/or receiving revenues in, foreign and domestic currencies. Currency trading risks include market risk, credit risk and country risk. Market risk results from adverse changes in exchange rates in the currencies the Fund is long or short. Credit risk results because a currency-trade issuer may default. Country risk arises because a government may interfere with transactions in its currency.
- **Emerging Market Risk:** Investing in emerging markets involves not only the risks described below with respect to investing in foreign securities, but also other risks, including exposure to economic structures that are generally less diverse and mature, limited availability and reliability of information material to an investment decision, and exposure to political systems that can be expected to have less stability than those of developed countries. The market for the securities of issuers in emerging market typically is small, and a low or nonexistent trading volume in those securities may result in a lack of liquidity and price volatility.
- **Equity Risk:** The net asset value of the Fund will fluctuate based on changes in the value of the equity securities in which it invests through ETFs. Equity prices can fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions.

- **ETF Risk:** ETFs are subject to investment advisory fees and other expenses, which will be indirectly paid by the Fund. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in ETFs and may be higher than other mutual funds that invest directly in bonds. Each ETF is subject to specific risks, depending on its investments. ETF shares may trade at a discount or a premium in market price if there is a limited market in such shares. ETFs are also subject to brokerage and other trading costs, which could result in greater expenses to the Fund. If the Fund invests a significant portion of its assets in ETFs offered by one ETF sponsor, the Fund could be exposed to additional risks and losses if the sponsor's ETFs fall out of favor in the marketplace and trading volumes cause the ETF's market prices to decline.
- **Fixed-Income Risk:** When the Fund invests in fixed-income ETFs, the value of your investment in the Fund will fluctuate with changes in interest rates. Rising interest rates will cause a bond's value to decline. Defaults by fixed income issuers will also harm performance. Other risk factors impacting fixed-income securities include credit risk, maturity risk, market risk, extension or prepayment risk, illiquid security risks, investment-grade securities risk. These risks could affect the value of a particular investment by the Fund possibly causing the Fund's share price and total return to be reduced and fluctuate more than other types of investments.
- **Foreign Investment Risk:** Foreign investing involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards.
- **High Yield or Junk Bond Risk:** Lower-quality bonds and other debt securities, known as "high yield" or "junk" bonds, are considered speculative and present greater risk than bonds of higher quality, including an increased risk of default. An economic downturn or period of rising interest rates could adversely affect the market for these bonds and reduce the Fund's ability to sell its bonds. The lack of a liquid market for these bonds could decrease the Fund's share price.
- **Inverse ETF Risk:** Inverse ETFs are designed to rise in price when stock prices are falling. Inverse ETFs may employ leverage, which magnifies tend to limit the changes in the Fund's participation in overall market-wide gains. Accordingly, their performance over longer terms can perform very differently than underlying stock index upon which they are based assets and benchmarks, and volatile markets can amplify this effect. Any strategy that includes inverse securities could cause the Fund to suffer significant losses.
- **Management Risk:** The Adviser's dependence on its proprietary macroeconomic analysis and judgments about the attractiveness, value and potential appreciation of particular asset classes in which the Fund invests (long or short via inverse ETFs) may prove to be incorrect and may not produce the desired results.
- **Market and Geopolitical Risk:** The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as a worldwide pandemic, terrorist attacks, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and global financial markets. It is difficult to predict when similar events affecting the U.S. or global financial markets may occur, the effects that such events may have and the duration of those effects. Any such event(s) could have a significant adverse impact on the value and risk profile of the Fund. The COVID-19 global pandemic had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your investment. Therefore, the Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments. In times of severe market disruptions, you could lose your entire investment.

- **Portfolio Turnover Risk:** A higher portfolio turnover may result in higher transactional and brokerage costs associated with the turnover which may reduce the Fund's return, unless the securities traded can be bought and sold without corresponding commission costs. Active trading of securities may also increase the Fund's realized capital gains or losses, which may affect the taxes you pay as the Fund shareholder. The Fund's portfolio turnover rate is expected to be above 100% annually.
- **Real Estate Investment Trust (REIT) Risk:** Investing in REITs, involves certain unique risks in addition to those associated with the real estate sector generally. REITs whose underlying properties are concentrated in a particular industry or region are also subject to risks affecting such industries and regions. REITs (especially mortgage REITs) are also subject to interest rate risks. By investing in REITs through the Fund, a shareholder will bear expenses of the REITs in addition to Fund expenses.
- **Small and Medium Capitalization Company Risk:** Securities of small and medium capitalization companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.
- **Sovereign Debt Risk:** These investments are subject to the risk that a governmental entity may delay or refuse to pay interest or repay principal on its sovereign debt. There is no legal process for collecting sovereign debt that a government does not pay nor are there bankruptcy proceedings through which all or part of the sovereign debt that a governmental entity has not repaid may be collected.

Performance. The following performance information provides some indication of the risks of investing in the Fund. The Fund is the successor to the Predecessor Fund, a mutual fund with identical investment objectives, policies, and restrictions, as a result of the reorganization of the Predecessor Fund into the Fund on February 13, 2026. The performance provided in the bar chart and table is that of the Predecessor Fund. The bar chart illustrates how the Predecessor Fund's average annual returns have varied from year to year for the past ten calendar years. The table below illustrates how the Predecessor Fund's average annual total returns over time compare with a domestic broad-based market index. The Predecessor Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available at no cost by visiting www.beaconinvestingfunds.com or by calling (866) 439-9093.

Class I Annual Total Return
(Years ended December 31)

Best Quarter	3/31/19	11.15%
Worst Quarter	12/31/18	(13.21)%

The Predecessor Fund's year-to-date return for Class I Shares as of June 30, 2025, was 3.05%.

Performance Table
Average Annual Total Returns
(For periods ended December 31, 2025)

	One Year	Five Years	Ten Years
Class I Return before taxes*	10.20%	6.23%	6.63%
Return after taxes on distributions	8.37%	3.74%	5.01%
Return after taxes on distributions and sale of Fund shares	6.71%	3.94%	4.76%
Class A Return before taxes**	4.62%	4.94%	5.85%
Class C Return before taxes***	9.07%	5.17%	5.56%
S&P 500® Total Return Index ⁽¹⁾	17.88%	14.42%	14.82%
S&P 500/40% Bloomberg U.S. Aggregate Bond Index ⁽²⁾	13.70%	8.47%	9.78%

* Class I shares of the Predecessor Fund commenced operations on October 19, 2009.

** Class A shares of the Predecessor Fund commenced operations on November 30, 2011.

*** Class C shares of the Predecessor Fund commenced operations on March 12, 2010.

(1) The S&P 500® Total Return Index is an unmanaged market capitalization-weighted index of 500 of the largest capitalized U.S. domiciled companies. Index returns assume reinvestment of dividends. Unlike the Fund's returns, however, they do not reflect any fees or expenses. Investors cannot directly invest in an index.

(2) S&P 500/40% Bloomberg U.S. Aggregate Bond Index is a custom benchmark consisting of the summed returns of 60% of the S&P 500 Total Return Index and 40% of the Bloomberg U.S. Aggregate Bond Index on a monthly basis. Index returns are calculated with dividends reinvested. This custom benchmark is often used for comparison purposes as it represents a "balanced" portfolio of equities and fixed income.

After-tax returns were calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold shares of the Fund through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown for only Class I shares, and after-tax returns for other classes will vary.

Investment Adviser. Beacon Capital Management, Inc. serves as the Fund's investment adviser.

Trading Sub-Adviser: Exchange Traded Concepts, LLC (the "Trading Sub-Adviser") serves as the Fund's trading sub-adviser.

Portfolio Managers. The following individuals serve as the Fund's co-portfolio managers:

Portfolio Managers	Primary Title	With the Fund and Predecessor Fund since
Bryan Novak	Consultant, Investment Committee of the Adviser	November 2011
Jan Eckstein	Assistant Vice President, Portfolio Strategy, of the Adviser	November 2011
John Osier	Senior Portfolio Strategist of the Adviser and Lead Investment Committee Member	2026

Each portfolio manager is primarily and jointly responsible for the day-to-day management of the Fund.

Purchase and Sale of Fund Shares. for trading. The minimum initial investment for Class A and Class C shares of the Fund is \$1,000 for tax-qualified accounts such as 401(k) plans or IRAs and \$5,000 for other accounts. The minimum initial investment in Class I shares of the Fund is \$5,000 for all accounts. The minimum subsequent investment is \$100 for each Class.

Tax Information. Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-free plan. However, these dividend and capital gain distributions may be taxable upon their eventual withdrawal from tax-deferred plans.

Payments to Broker-Dealers and Other Financial Intermediaries. If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

Additional Information About Principal Investment Strategies and Related Risks

Investment Objective

The Fund's investment objective is to seek total return through a combination of capital appreciation and income.

The Fund's investment objective and its 80% ETF investment policy may be changed without shareholder approval by the Trust's Board of Trustees (the "Board") upon 60 days' written notice to shareholders.

Principal Investment Strategies

The Adviser's management style focuses on asset allocation and risk management based on the philosophy that macroeconomic trends can be utilized to adjust portfolio risk levels. The proprietary Beacon Economic Index® (formerly Astor) identifies levels of macroeconomic activity and trends utilizing statistical measurement of economic data points in order to provide a guideline for asset allocation. The core objective of the Adviser is to invest the Fund's assets for the appropriate level of portfolio risk based upon the analysis of the current economic environment. As a result, the Fund seeks to achieve capital appreciation during periods of positive economic growth while reducing volatility during periods of declining economic activity and growth. The Adviser seeks to mitigate participation in the wealth destroying market drawdowns that typically coincide with contractionary economic environments.

The Fund starts with a balanced allocation to risk (i.e. domestic and foreign equities and fixed income) and seeks to increase or decrease that base allocation by analyzing macroeconomic factors like employment and output, as well as market price and momentum. The Adviser believes that investors can achieve better risk-adjusted returns throughout various economic and market conditions with this approach. A multi-asset, tactical asset allocation strategy is utilized to increase or decrease portfolio risk exposure to a variety of market sectors, capitalizations and styles. The Adviser's objective is to produce positive overall returns with a consistent process of risk management throughout economic cycles by reducing exposure to risk assets (e.g. equities) during economic environments that historically experienced negative performance for those assets. In periods the Adviser has identified as economic downturns (contraction and trough), the Fund may invest in higher levels of cash equivalents, fixed income, and alternative or specialty asset classes such as inverse ETFs in order to reduce correlation to broad equity markets. The Adviser believes its research supports that an economic strategy successful in identifying the current economic environment and trends has the ability to achieve greater risk-adjusted returns versus standard balanced benchmarks such as the 60% Bloomberg U.S. Aggregate Bond Index/40% S&P 500 Index while potentially reducing participation in wealth destroying drawdowns during certain periods. The Adviser believes this philosophy will serve investors' long-term financial goals of capital appreciation, lower volatility and possibly faster recovery times from market losses.

The Trading Sub-Adviser is responsible for executing portfolio transactions and implementing the Adviser's decisions for the Fund.

General Investment Policies for the Fund

Temporary or Cash Investments. Under normal market conditions, the Fund will stay fully invested according to its principal investment strategies as noted above. The Fund, however, may temporarily depart from its principal investment strategies by making short-term investments in cash, cash equivalents, and high-quality, short-term debt securities and money market instruments for temporary defensive purposes in response to adverse market, economic or political conditions, or other events (including, for example, terrorism, war, natural disasters and disease/virus epidemics). This may result in the Fund not achieving its investment objectives during that period.

For longer periods of time, the Fund may hold a substantial cash position. If the market advances during periods when the Fund is holding a large cash position, the Fund may not participate to the extent it would have if the Fund had been more fully invested. To the extent that the Fund uses a money market fund for its cash position, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market fund's advisory fees and operational expenses.

Securities Lending. To generate additional income, the Fund may lend its portfolio securities to qualified banks, broker-dealers and financial institutions (referred to as “borrowers”), provided that: (i) the loan is continuously secured by collateral in cash, cash equivalents, bank letters of credit or U.S. Government securities equal to at least 100% of the value of the loaned securities, and such collateral must be valued, or “marked to market,” daily (borrowers are required to furnish additional collateral to the Fund as necessary to fully cover their obligations); (ii) the loan may be recalled at any time by the Fund and the loaned securities be returned; (iii) the Fund will receive any interest, dividends or other distributions paid on the loaned securities; and (iv) the aggregate value of the loaned securities will not exceed 33 $\frac{1}{3}$ % of the Fund’s total assets. The Fund generally retains part, or all of the interest received on investment of the cash collateral or receives a fee from the borrower. While this practice will not impact the Fund’s principal investment strategy, it does subject the Fund to the securities lending risk described in this Prospectus.

Loans of securities involve a risk that the borrower may fail to return the securities or may fail to maintain the proper amount of collateral, which may result in a loss of money by the Fund or a delay in recovering the loaned securities. In addition, in the event of bankruptcy of the borrower, the Fund could experience delays in recovering the loaned securities or only recover cash or a security of equivalent value. Therefore, the Fund will only enter into portfolio loans after a review of all pertinent factors by the Adviser under the supervision of the Board, including the creditworthiness of the borrower and then only if the consideration to be received from such loans would justify the risk. Creditworthiness will be monitored on an ongoing basis by the Adviser. The Board of Trustees has a fiduciary obligation to recall a loan in time to vote proxies if fund management has knowledge of a material vote respect to the loaned securities and the Fund will attempt to recall a loaned security to permit the exercise of voting or consent rights if the matter involved would have a material effect on the Fund’s investment in the security. The costs of securities lending are not reflected in the “Annual Fund Operating Expenses” table or “Expense Example” above.

Principal Risks of Investing in the Fund

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested and the amount of risk you are willing to take. **Remember that in addition to possibly not achieving your investment goals, you could lose money by investing in the Fund.** The value of your investment in the Fund will go up and down with the prices of the securities in which the Fund invests.

The following provides additional information about the principal risks of investing in the Fund.

- **Alternative and Specialty Assets Risk:** The Fund may purchase ETFs that invest in “alternative asset” or “specialty” market segments. The risks and volatility of these investments are linked to narrow segments of the economy such as commodities, real estate, or currencies. Inverse ETFs limit the Fund’s participation in certain market gains.
- **Commodity Risk:** Investing in the commodities markets may subject the Fund to greater volatility than investments in traditional securities. Commodity prices may be influenced by unfavorable weather, animal and plant disease, geologic and environmental factors as well as changes in government regulation such as tariffs, embargoes or burdensome production rules and restrictions.
- **Credit Risk:** Debt issuers may not make interest or principal payments, resulting in losses to the Fund. In addition, the credit quality of securities held by an ETF may be lowered if an issuer’s financial condition changes. These risks are more pronounced for securities at the lower end of the investment grade credit quality spectrum, such as those rated BBB- or lower by Standard & Poor’s Ratings Group or another NRSRO.
- **Currency Risk (Domestic and Foreign):** The risk that material changes in currency exchange rates will negatively affect securities denominated in, and/or receiving revenues in, foreign and domestic currencies. Currency trading risks include market risk, credit risk and country risk. Market risk results from adverse changes in exchange rates in the currencies the Fund is long or short. Credit risk results because a currency-trade issuer may default. Country risk arises because a government may interfere with transactions in its currency.

- **Emerging Market Risk:** Investing in emerging markets involves not only the risks described below with respect to investing in foreign securities, but also other risks, including exposure to economic structures that are generally less diverse and mature, limited availability and reliability of information material to an investment decision, and exposure to political systems that can be expected to have less stability than those of developed countries. The market for the securities of issuers in emerging market typically is small, and a low or nonexistent trading volume in those securities may result in a lack of liquidity and price volatility.
- **Equity Risk:** The net asset value of the Fund will fluctuate based on changes in the value of the equity securities in which it invests through ETFs. Equity prices can fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions.
- **ETF Risk:** ETFs are subject to investment advisory fees and other expenses, which will be indirectly paid by the Fund. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in ETFs and may be higher than other mutual funds that invest directly in bonds. Each ETF is subject to specific risks, depending on its investments. ETF shares may trade at a discount or a premium in market price if there is a limited market in such shares. ETFs are also subject to brokerage and other trading costs, which could result in greater expenses to the Fund. If the Fund invests a significant portion of its assets in ETFs offered by one ETF sponsor, the Fund could be exposed to additional risks and losses if the sponsor's ETFs fall out of favor in the marketplace and trading volumes cause the ETF's market prices to decline.
- **Fixed-Income Risk:** When the Fund invests in fixed-income ETFs, the value of your investment in the Fund will fluctuate with changes in interest rates. Rising interest rates will cause a bond's value to decline. Defaults by fixed income issuers will also harm performance. Other risk factors impacting fixed-income securities include credit risk, maturity risk, market risk, extension or prepayment risk, illiquid security risks, investment-grade securities risk. These risks could affect the value of a particular investment by the Fund possibly causing the Fund's share price and total return to be reduced and fluctuate more than other types of investments.
- **Foreign Investment Risk:** Foreign investing involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards.
- **High Yield or Junk Bond Risk:** Lower-quality bonds and other debt securities, known as "high yield" or "junk" bonds, are considered speculative and present greater risk than bonds of higher quality, including an increased risk of default. An economic downturn or period of rising interest rates could adversely affect the market for these bonds and reduce the Fund's ability to sell its bonds. The lack of a liquid market for these bonds could decrease the Fund's share price.
- **Inverse ETF Risk:** Inverse ETFs are designed to rise in price when stock prices are falling. Inverse ETFs may employ leverage, which magnifies tend to limit the changes in the Fund's participation in overall market-wide gains. Accordingly, their performance over longer terms can perform very differently than underlying stock index upon which they are based assets and benchmarks, and volatile markets can amplify this effect. Any strategy that includes inverse securities could cause the Fund to suffer significant losses.
- **Management Risk:** The Adviser's dependence on its proprietary macroeconomic analysis and judgments about the attractiveness, value and potential appreciation of particular asset classes in which the Fund invests (long or short via inverse ETFs) may prove to be incorrect and may not produce the desired results.
- **Market and Geopolitical Risk:** The increasing interconnectivity between global economies and financial markets increases the likelihood that events or conditions in one region or financial market may adversely impact issuers in a different country, region or financial market. Securities in the Fund may underperform due to inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters, pandemics, epidemics, terrorism, international conflicts, regulatory events and governmental or quasi-governmental actions. The occurrence of global events similar to those in recent years, such as a worldwide pandemic, terrorist attacks, natural disasters, social and political discord or debt crises and downgrades, among others, may result in market volatility and may have long term effects on both the U.S. and

global financial markets. It is difficult to predict when similar events affecting the U.S. or global financial markets may occur, the effects that such events may have and the duration of those effects. Any such event(s) could have a significant adverse impact on the value and risk profile of the Fund. The COVID-19 global pandemic had negative impacts, and in many cases severe negative impacts, on markets worldwide. It is not known how long such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may impact your investment. Therefore, the Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates can have the same impact on all types of securities and instruments. In times of severe market disruptions, you could lose your entire investment.

- **Portfolio Turnover Risk:** A higher portfolio turnover may result in higher transactional and brokerage costs associated with the turnover which may reduce the Fund's return, unless the securities traded can be bought and sold without corresponding commission costs. Active trading of securities may also increase the Fund's realized capital gains or losses, which may affect the taxes you pay as the Fund shareholder. The Fund's portfolio turnover rate is expected to be above 100% annually.
- **Real Estate Investment Trust (REIT) Risk:** Investing in REITs, involves certain unique risks in addition to those associated with the real estate sector generally. REITs whose underlying properties are concentrated in a particular industry or region are also subject to risks affecting such industries and regions. REITs (especially mortgage REITs) are also subject to interest rate risks. By investing in REITs through the Fund, a shareholder will bear expenses of the REITs in addition to Fund expenses.
- **Small and Medium Capitalization Company Risk:** Securities of small and medium capitalization companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.
- **Sovereign Debt Risk:** These investments are subject to the risk that a governmental entity may delay or refuse to pay interest or repay principal on its sovereign debt. There is no legal process for collecting sovereign debt that a government does not pay nor are there bankruptcy proceedings through which all or part of the sovereign debt that a governmental entity has not repaid may be collected.

Temporary Investments

To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the Fund may not achieve its investment objective. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the Fund's SAI. Currently, disclosure of the Fund's holdings is required to be made quarterly within 60 days of the end of each fiscal quarter in the annual and semi-annual reports on Form N-CSR and in the quarterly holdings report on Form N-PORT. The annual and semi-annual financial statements for the Fund are available by contacting the Fund, c/o Ultimus Fund Solutions, LLC, P.O. Box 46707 Cincinnati, OH 45246 or calling 1-888-263-6443.

Cybersecurity

The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate their NAV; impediments to trading; the inability of the Fund, the Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invest; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

Management of the Fund

The Adviser

Beacon Capital Management, Inc., located at 7777 Washington Village Dr. Suite 280, Dayton, OH 45459, serves as the Fund's investment adviser. The Adviser is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940, as amended.

Subject to the oversight of the Board of Trustees, the Adviser is responsible for overseeing the management of the Fund's investments and providing certain administrative services and facilities under an advisory agreement between the Fund and the Adviser (the "Investment Advisory Agreement").

Pursuant to the Advisory Agreement, the Fund pays the Adviser a management fee, computed daily and paid monthly, based on the Fund's average daily net assets at an annual rate equal to 0.95%.

For the most recent fiscal year ended July 31, 2024, the Predecessor Fund's prior adviser received an advisory fee net of fee waivers and expense reimbursements equal to 0.68% of the Fund's average daily net assets. For the fiscal period February 28, 2028, the Adviser received an advisory fee net of fee waivers and expense reimbursements equal to 0.46% of the Fund's average daily net assets.

Fund Expenses. The Fund is responsible for its own operating expenses. In addition to investment advisory fees, the Fund pays other expenses including costs incurred in connection with the maintenance of securities law registration, printing and mailing prospectuses and statements of additional information to shareholders, certain financial accounting services, taxes or governmental fees, custodial, transfer and shareholder servicing agent costs, expenses of outside counsel and independent accountants, preparation of shareholder reports and expenses of trustee and shareholders meetings.

Pursuant to an operating expense limitation agreement between the Adviser and the Trust on behalf of the Fund, the Adviser has contractually agreed to waive its management fees and to make payments to limit Fund expenses until February 28, 2028 so that the total annual operating expenses (excluding any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, fees and expenses associated with instruments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses), borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees and contractual indemnification of Fund service providers (other than the advisor)) of the Fund do not exceed the following levels of the daily average net assets attributable to each respective class of shares. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the lesser of the expense limits in effect at the time of the waiver or the then-current expense limits.

Class A	Class C	Class I
1.40%	2.15%	1.15%

The Trading Sub-Adviser

Exchange Traded Concepts, LLC, an Oklahoma limited liability company located at 10900 Hefner Pointe Drive, Suite 400, Oklahoma City, Oklahoma 73120, serves as the Fund's trading sub-adviser. The Trading Sub-Adviser is responsible for executing portfolio transactions and implementing the Adviser's decisions for the Fund.

Pursuant to an agreement between the Adviser and Trading Sub-Adviser (the "Sub-Advisory Agreement"), as compensation for the sub-advisory services it provides to the Fund, the Adviser will pay the Trading Sub-Adviser a fee, computed daily, at an annual rate based on the greater of (1) the Minimum Sub-Advisory Fees or (2) the average daily net assets of the Fund in accordance with the following fee schedule (the "Asset-Based Sub-Advisory Fees"), if the aggregate Asset-Based Sub-Advisory Fees exceed the aggregate Minimum Sub-Advisory Fees:

Minimum Sub-Advisory Fees	Asset-Based Sub-Advisory Fees
\$37,500 per annum (first two years of the Sub-Advisory Agreement)	0.03%
\$30,000 per annum (after the first two years)	

A discussion regarding the basis for the Board of Trustees' approval of the Advisory Agreement and the Sub-Advisory Agreement is available in the Fund's annual report on Form N-CSR dated February 28, 2026.

Portfolio Managers

Bryan Novak, Consultant, Investment Committee of the Adviser, and Jan Eckstein, Assistant Vice President, Portfolio Strategy of the Adviser, and John Osier, Vice President, Investment Strategy are co-portfolio managers for the Fund. The portfolio managers perform top-down economic analysis, quantitative research, and momentum forecasting technical analysis of current financial and economic conditions. Final investment and portfolio management decisions are approved by the co-portfolio managers jointly. Mr. Novak has served as a portfolio manager to the Fund and the Predecessor Fund since inception, and Ms. Eckstein has been a portfolio manager since 2011. Mr. Osier has been a portfolio manager since 2026. The Fund commenced operations in 2009.

Bryan Novak, Co-Portfolio Manager. Bryan Novak joined Beacon Capital in 2025 following the acquisition of Astor Investment Management ("Astor"), the Fund's prior investment adviser. Previously, Mr. Novak had been with Astor since 2002 and served as its Chief Executive Officer where he oversaw Astor's business operations.

Jan Eckstein, Co-Portfolio Manager. Jan Eckstein joined Beacon Capital in 2025 following the acquisition of Astor. Ms. Eckstein had been with Astor since 2011 and served as Chief Investment Officer.

John Osier, Co-Portfolio Manager. John Osier joined Beacon Capital in 2024 to lead Investments for the Firm. Mr. Osier was previously a portfolio manager for Beacon's parent company.

The Fund's SAI provides additional information about the portfolio managers' compensation structure, other accounts managed by the portfolio managers, and the portfolio managers' ownership of shares of the Fund.

Shareholder Information

How Shares are Priced

Shares of the Fund are sold at net asset value ("NAV"). The NAV of the Fund is determined at the close of regular trading on the New York Stock Exchange (normally 4:00 p.m. Eastern Time) on each day the New York Stock Exchange ("NYSE") is open. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund's securities listed on an exchange are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchanges. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the "fair value" procedures approved by the Board. Fair value pricing involves subjective judgments, and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has appointed the Adviser as its designee (the "Valuation Designee") for all fair value determinations and responsibilities other than overseeing pricing service providers used by the Trust. This designation is subject to Board oversight and certain reporting and other requirements designed to facilitate the Board's ability to oversee the Valuation Designee's fair value determinations effectively. The Valuation Designee may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board is responsible for reviewing and approving fair value methodologies utilized by the Valuation Designee, which approval shall be based upon whether the Valuation Designee followed the valuation procedures established by the Board.

The Fund may use independent pricing services to assist in calculating the value of the Fund's securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund. Because the Fund may invest directly or indirectly through underlying exchanged traded funds ("ETFs") in securities primarily listed on foreign exchanges, and these exchanges may trade on weekends or other days when the Fund or underlying ETFs do not price their shares, the value of some of the Fund's portfolio securities may change on days when you may not be able to buy or sell Fund shares.

In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund's portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Adviser may need to price the security using the Fund's fair value pricing guidelines. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other funds to determine net asset value, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund's assets that are invested in one or more open-end management investment companies registered under the 1940 Act, the Fund's net asset value is calculated based upon the net asset values of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

How to Purchase Shares

Share Classes

This Prospectus describes three classes of shares offered by the Fund. The Fund offers these classes of shares so that you can choose the class that best suits your investment needs. Refer to the information below so that you can choose the class that best suits your investment needs. The main differences between the share classes are the ongoing fees, sales charges and minimum investment amounts. Class A and Class C shares pay an annual fee of 0.25% and 1.00% for distribution expenses, respectively, pursuant to plans adopted under Rule 12b-1. Class I shares do not pay distribution fees. In choosing which class of shares to purchase, you should consider which will be most beneficial to you, given the amount of your purchase and the length of time you expect to hold the shares. Each class of shares in the Fund represents an interest in the same portfolio of investments in that Fund. All share classes may not be available in all states.

Class A Shares: Class A shares are offered at their public offering price, which is net asset value per share plus a sales charge of 4.75% of the amount invested. There are no sales charges on reinvested distributions. Class A shares pay up to 0.25% on an annualized basis of the average daily net assets as reimbursement or compensation for service and distribution-related activities with respect to the Fund and/or shareholder services. Over time, fees paid under this distribution and service plan will increase the cost of a Class A shareholder's investment and may cost more than other types of sales charges. The minimum initial investment is \$1,000 for qualified accounts such as 401(k) plans or IRAs and \$5,000 for other accounts.

Amount Invested	Sales Charge as a % of Offering Price ⁽¹⁾	Sales Charge as a % of Amount Invested	Dealer Reallowance
Less than \$50,000	4.75%	4.99%	4.00%
\$50,000 to \$99,999.99	4.00%	4.12%	3.50%
\$100,000 to \$299,999.99	3.00%	3.09%	2.50%
\$300,000 to \$499,999.99	2.00%	2.04%	1.50%
\$500,000 or More	1.00%	1.01%	1.00%

(1) Offering price includes the front-end sales load. The sales charge you pay may differ slightly from the amount set forth above because of rounding that occurs in the calculations used to determine your sales charge.

How to Reduce Your Sales Charge

You may be eligible to purchase Class A shares at a reduced sales charge. To qualify for these reductions, you must notify the Fund's distributor, Northern Lights Distributors, LLC (the "Distributor"), in writing and supply your account number at the time of purchase. You may combine your purchase with those of your "immediate family" (your spouse and your children under the age of 21) for purposes of determining eligibility. If applicable, you will need to provide the account numbers of your spouse and your minor children as well as the ages of your minor children.

Rights of Accumulation: To qualify for the lower sales charge rates that apply to larger purchases of Class A shares, you may combine your new purchases of Class A shares with Class A shares of the Fund that you already own. The applicable initial sales charge for the new purchase is based on the total of your current purchase and the current value of all other Class A shares that you own. The reduced sales charge will apply only to current purchases and must be requested in writing when you buy your shares.

Shares of the Fund held as follows cannot be combined with your current purchase for purposes of reduced sales charges:

- (i) Shares held indirectly through financial intermediaries other than your current purchase broker-dealer (for example, a different broker-dealer, a bank, a separate insurance company account or an investment advisor);
- (ii) Shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (for example, a 401(k) plan) other than employer-sponsored IRAs; or
- (iii) Shares held directly in the Fund account on which the broker-dealer (financial advisor) of record is different than your current purchase broker-dealer.

Letters of Intent: Under a Letter of Intent ("LOI"), you commit to purchase a specified dollar amount of Class A shares of the Fund, with a minimum of \$50,000, during a 13-month period. At your written request, Class A shares purchases made during the previous 90 days may be included. The amount you agree to purchase determines the initial sales charge you pay. If the full-face amount of the LOI is not invested by the end of the 13-month period, your account will be adjusted to the higher initial sales charge level for the amount actually invested. You are not legally bound by the terms of your LOI to purchase the amount of your shares stated in the LOI. The LOI does, however, authorize the Fund to hold in escrow 5% of the total amount you intend to purchase. If you do not complete the total intended purchase at the end of the 13-month period, the Fund's transfer agent will redeem the necessary portion of the escrowed shares to make up the difference between the reduced rate sales charge (based on the amount you intended to purchase) and the sales charge that would normally apply (based on the actual amount you purchased).

Repurchase of Class A Shares: If you have redeemed Class A shares of the Fund within the past 120 days, you may repurchase an equivalent amount of Class A shares of the Fund at NAV, without the normal front-end sales charge. In effect, this allows you to reacquire shares that you may have had to redeem, without repaying the front-end sales charge. You may exercise this privilege only once and must notify the Fund that you intend to do so in writing. The Fund must receive your purchase order within 120 days of your redemption. Note that if you reacquire shares through separate installments (e.g., through monthly or quarterly repurchases), the sales charge waiver will only apply to those portions of your repurchase order received within 120 days of your redemption.

Sales Charge Waivers

The sales charge on purchases of Class A shares is waived for certain types of investors, including:

- (1) Current and retired directors and officers of the Fund sponsored by the Adviser or any of its subsidiaries, their families (e.g., spouse, children, mother or father) and any purchases referred through the Adviser.
- (2) Employees of the Adviser and their families, or any full-time employee or registered representative of the distributor or of broker-dealers having dealer agreements with the distributor (a "Selling Broker") and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons).

- (3) Any full-time employee of a bank, savings and loan, credit union or other financial institution that utilizes a Selling Broker to clear purchases of the Fund's shares and their immediate families.
- (4) Participants in certain "wrap-fee" or asset allocation programs or other fee-based arrangements sponsored by broker-dealers and other financial institutions that have entered into agreements with the distributor.
- (5) Clients of financial intermediaries that have entered into arrangements with the distributor providing for the shares to be used in particular investment products made available to such clients and for which such registered investment advisors may charge a separate fee.
- (6) Institutional investors (which may include bank trust departments and registered investment advisors).
- (7) Any accounts established on behalf of registered investment advisors or their clients by broker-dealers that charge a transaction fee and that have entered into agreements with the distributor.
- (8) Separate accounts used to fund certain unregistered variable annuity contracts or Section 403(b) or 401(a) or (k) accounts.
- (9) Employer-sponsored retirement or benefit plans with total plan assets in excess of \$5 million where the plan's investments in the Fund are part of an omnibus account. A minimum initial investment of \$1 million in the Fund is required. The distributor in its sole discretion may waive these minimum dollar requirements.

The Fund does not waive sales charges for the reinvestment of proceeds from the sale of shares of a different fund where those shares were subject to a front-end sales charge (sometimes called an "NAV transfer").

Whether a sales charge waiver is available for your retirement plan or charitable account *depends upon the policies and procedures of your intermediary*. Please consult your financial adviser for further information.

Class C Shares: Class C shares of the Fund are offered at their NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund. Class C shares pay up to 1.00% on an annualized basis of the average daily net assets as reimbursement or compensation for service and distribution-related activities with respect to the Fund and/or shareholder services. Over time, fees paid under this distribution and service plan will increase the cost of a Class C shareholder's investment and may cost more than other types of sales charges.

The minimum initial investment is \$1,000 for qualified accounts such as 401(k) plans or IRAs and \$5,000 for other accounts.

Class I Shares: Class I shares are offered at their NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund. In addition, Class I shares do not have a distribution or service-related fee. The minimum initial investment is \$5,000 for all accounts. An investor transacting in Class I Shares through a broker acting as an agent for the investor may be required to pay a commission and/or other forms of compensation to the broker.

Exchanges for Class C Shares

Exchange Privilege: Upon request, shareholders of Class C shares are eligible to exchange their shares for Class A shares if the accumulated value of their shares exceeds the minimum initial investment amount for Class A shares (\$1,000 for qualified accounts such as 401(k) plans or IRAs and \$5,000 for other accounts)

The Fund will determine the eligibility of an investor to exercise the exchange privilege based on the current NAV of Class A shares. Such an exchange will be affected at the NAV of the Class A shares next calculated after the exchange request is received by the Fund's transfer agent in good order. Shares of each class of the Fund represent equal pro rata interests in the Fund and accrue dividends and calculate NAV and performance quotations in the same manner. The performance of each class is quoted separately due to different actual expenses. The total return on Class C

shares can be expected to differ from the total return on Class A shares. The Fund reserves the right to change or discontinue this exchange privilege, or to temporarily suspend the privilege during unusual market conditions when, in the judgment of the Adviser, such change or discontinuance is in the best interests of the Fund. Shareholders who exercise the exchange privilege will generally not recognize a taxable gain or loss for federal income tax purposes on an exchange of Class C shares for Class A shares.

You may make an exchange request by sending a written request to the Fund's transfer agent or, if authorized, by calling the transfer agent at 1-877-738-0333.

Factors to Consider When Choosing a Share Class: When deciding which class of shares of the Fund to purchase, you should consider the present and future amounts you may invest in the Fund. To help you make a determination as to which class of shares to buy, please refer back to the examples of the Fund's expenses over time in the **Fees and Expenses** section of this Prospectus. You also may wish to consult with your financial adviser for advice with regard to which share class would be most appropriate for you.

Initial Purchase Methods: To open an account, you must submit a completed New Account Application in good order. Initial investments may be funded via federal funds wire transfer, Automated Clearing House (ACH), or check drawn on a U.S. financial institution. The Fund offers its shares at the NAV next determined after an order is received in good order on a Business Day. The Fund reserves the right to reject any purchase order or payment method at its sole discretion.

Purchasing Shares: You may purchase shares of the Fund by sending a completed application form to the following address:

Customer Identification Program (CIP) and Anti-Money Laundering (AML) Disclosure Important Information About Procedures for Opening a New Account

To help the government fight the funding of terrorism and money laundering activities, federal law requires financial institutions, including mutual funds, to obtain, verify, and record information that identifies each person or entity that opens an account, to the extent reasonable and practicable. This notice is provided in accordance with the **USA PATRIOT Act of 2001** and the regulations issued thereunder.

What this means for you: When you open an account, the Fund and/or its agents, including the Transfer Agent, will request your full name, residential or business street address, date of birth for individuals, and an identification number, such as a Social Security Number or Taxpayer Identification Number ("TIN"), and may request other information that will allow the Fund to identify you. A P.O. Box is not sufficient and will not be accepted as a primary residential or business street address, although it may be used as a mailing address.

For legal entities, the Fund may require documentation verifying the legal existence of the entity and, as required by applicable law, identifying and verifying the identity of **beneficial owners** and/or control persons. The Fund may also request to see a driver's license, passport, or other identifying documents. The Fund may also check customer information against government lists, as required or permitted by applicable law. The Fund will retain records of the information used to verify identity in accordance with applicable law.

Verification Process: The Fund and/or its agents reserve the right to:

- **Refuse** to open an account or delay the processing of a purchase order if the required information is not provided;
- **Restrict** transactions, close an account, or take other steps if identity cannot be verified within a reasonable timeframe; and/or
- **Take any other action** required or permitted by applicable law, including freezing an account or its assets.

Account Closure/Redemption

If an account is closed because identity cannot be verified, shares will be redeemed at the next calculated net asset value ("NAV") following the closure, or as otherwise permitted by applicable law. To the extent permitted by applicable law, the Fund, the Transfer Agent, and their respective affiliates and agents will not be liable for any loss, including market fluctuations, resulting from delays, restrictions, or account closures related to this verification process.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to invest in the Fund by wire, please call the Fund at 1-877-738-0333 to obtain detailed wiring instructions and to notify the Fund that a wire transfer will be sent. The Fund will generally credit investments made by wire on the business day the funds are received by the Fund's designated bank, provided they are received prior to the close of regular trading on the New York Stock Exchange (NYSE) (typically 4:00 p.m. Eastern Time). Your bank may charge a fee for same-day wire transfers. The Fund is not responsible for any delays in the receipt of wired funds due to the actions of the transmitting or receiving bank, or the Federal Reserve wire system.

Automatic Investment Plan ("AIP"): Shareholders may purchase shares through an Automatic Investment Plan ("AIP"), which provides for regular, periodic purchases in accordance with the shareholder's instructions and the transfer agent's procedures. With the shareholder's authorization, the transfer agent will process AIP purchases in the amount and frequency selected by the shareholder at the Fund's net asset value ("NAV") next determined after receipt of the applicable purchase instructions in good order. There is no minimum investment amount required to participate in the AIP.

Shareholders may change or terminate AIP instructions at any time by contacting the transfer agent. Only bank accounts maintained at U.S. financial institutions that are ACH members may be used. The Fund and/or the transfer agent may modify, suspend, or terminate the AIP at any time.

Automated Clearing House ("ACH") Purchase. Shareholders may purchase shares of the Fund through the Automated Clearing House ("ACH") network from a U.S. domestic bank or other U.S. domestic financial institution. All payments must be made in U.S. dollars.

Initial and Subsequent Purchases by ACH.

ACH may be used for both initial and subsequent investments. To establish ACH instructions, shareholders must provide the required banking information on the Account Application (or other documentation acceptable to the Fund or its transfer agent).

Bank Account Requirements.

The designated bank account must be maintained at a U.S. domestic financial institution. The name(s) and registration on the bank account must exactly match the name(s) and registration on the Fund account. The bank account must be owned and controlled by the shareholder(s). ACH transfers initiated from a third-party bank account will not be accepted.

Right to Reject / Good Order

The Fund and its transfer agent reserve the right to reject any ACH purchase request that is not received in "good order." A request is in "good order" when all required information, authorizations, and documentation have been received in proper form and are acceptable to the Fund or its transfer agent.

Payment for Shares and Good Funds Policy

The Fund accepts payment for shares by check, Automated Clearing House ("ACH") transfer, or wire transfer. All purchase orders are subject to acceptance by the Fund and will be executed at the next net asset value ("NAV") calculated after the order is received in good order.

Payments made by check or ACH may be subject to a collection period to ensure that funds have cleared and are received in "good funds." The Fund and its Transfer Agent reserve the right to delay the disbursement of redemption or exchange proceeds from shares purchased by check or ACH for up to **10 business days** (or longer, if necessary) to allow the payment to clear.

During this period, the proceeds of newly purchased shares are not available for redemption or exchange. This policy does not apply to purchases made by wire transfer, which are generally considered good funds upon receipt.

If a check or ACH payment does not clear, the purchase order will be cancelled, and the investor will be responsible for any resulting loss incurred by the Fund or its Transfer Agent, as well as any applicable fees.

Minimum and Additional Investment Amounts: You can open an account with a minimum initial investment for Class C, and A shares is \$1,000 for qualified accounts such as 401(k) plans or IRAs and \$5,000 for other accounts. The minimum initial investment for all accounts is \$5,000 for Class I shares and, you may make additional investments to your account in any Fund at any time with as little as \$100. There is no minimum investment requirement when you are buying shares by reinvesting dividends and distributions from the Fund. The Fund reserves the right to waive any investment minimum.

The Fund reserves the right, in its sole discretion, to reject any application or purchase request. Initial purchases may be funded by ACH, wire, or check. If purchasing by check, the check must be drawn on a U.S. bank, thrift institution, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by ACH, wire, or by sending a check together with written instructions stating the name(s) on the account and the account number to the above address. Make all checks payable to the Fund."

Unacceptable Forms of Payment: The Funds generally do not accept cash equivalents for the purchase of shares, including, but not limited to: cash, cashier's checks, bank official checks, certified checks, bank money orders, third-party checks (except for properly endorsed IRA transfer and rollover checks), counter checks, starter checks, traveler's checks, money orders, credit card checks, cryptocurrency, or payments drawn on non-U.S. financial institutions.

Redemptions of Shares of the Fund purchased by check may be subject to a hold period until the check has been cleared by the issuing bank. To avoid such holding periods, Shares may be purchased through a broker or by wire, as described in this section.

Returned Check/NSF Fee: If your check or electronic payment does not clear, you will be responsible for any loss or expense incurred by the Fund or its Transfer Agent, as well as any applicable fees. A \$25 fee will be charged to defray bank charges and processing costs associated with the returned payment. The Fund reserves the right to redeem shares from your account to cover any unpaid amounts.

“When Order is Processed: Shares will be purchased at the applicable offering price next determined after the Fund receives your purchase request in good order. Purchase requests received in good order before the close of regular trading on the NYSE, normally 4:00 p.m. Eastern Time, will be processed on that Business Day. Purchase requests received in good order after the close of regular trading on the NYSE, or on a day when the NYSE is not open, will be processed on the next Business Day. If you purchase shares by check and request a redemption before the check has cleared, redemption proceeds will not be sent until the check used for your purchase has cleared your bank.”

Purchase Request in Good Order

A purchase request will be considered to be in “good order” only if it includes all of the following:

- A completed and signed account application (for new accounts).
- The exact dollar amount of the investment.
- For existing accounts, the account number and the name(s) exactly as registered on the account.
- Payment in U.S. dollars, payable to the Fund.
- Any documentation reasonably required by the Fund or its transfer agent to verify the identity or authority of the purchaser, if applicable.

Requests that are incomplete, unclear, or submitted without the required documentation may be delayed or rejected. The Fund and its transfer agent are not responsible for delays or losses due to requests that are not received in good order.

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Fund at 1-877-738-0333 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

Lost Shareholders, Inactive Accounts and Unclaimed Property. Unclaimed property laws may require the Fund or its transfer agent to transfer the assets of accounts that are considered abandoned, inactive, or lost (due to returned mail) to the appropriate state authority. An account may be deemed unclaimed if the shareholder has not initiated any contact or transaction within a time period specified by applicable state law.

Before any transfer to the state is made, the Fund or its transfer agent will send a due diligence notice to the shareholder, if legislatively required.

In some cases, this process is referred to as escheatment, and shareholders may be required to reclaim the assets from the applicable state’s unclaimed property office. Some states may also require the liquidation of shares prior to escheatment, and shareholders may only be entitled to receive the cash value at the time of sale.

For retirement accounts, such escheatment may be treated as a taxable distribution, and federal and/or state income tax withholding may apply.

To help avoid escheatment, shareholders should maintain current contact information and periodically initiate contact with the Fund or its transfer agent. Examples of shareholder-initiated contact include written correspondence, telephone inquiries, or initiating a transaction in the account.

In accordance with Texas law, residents of the state of Texas may designate a representative to receive legislatively required unclaimed property due diligence notifications. A Texas Designation of Representative Form is available for making such an election.

How to Redeem Shares

The Fund typically expects that it will take up to seven days after receipt of a redemption request in good order. The Fund expects to meet redemption requests using cash, cash equivalents, proceeds from any applicable line of credit, and/or proceeds from the sale of portfolio securities. These redemption payment methods will be used in both regular and stressed market conditions.

You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

via Regular Mail
Beacon Dynamic Allocation Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, OH 45246

or Overnight Mail
Beacon Dynamic Allocation Fund
c/o Ultimus Fund Solutions, LLC
225 Pictoria Drive, Suite 450
Cincinnati, OH 45246

Telephone Transactions. You may purchase, exchange, or redeem Fund shares by calling (877)-738-0333. Telephone transaction privileges are automatically available for new accounts unless you decline them on your account application or later revoke them by written instruction to the Fund or its Transfer Agent.

Telephone instructions, if received in good order before the applicable cut-off time, will be processed at the Fund's next determined net asset value ("NAV"). Redemption proceeds will be sent promptly to your address of record by check or to your bank account of record by ACH or wire transfer. Telephone redemptions are generally limited to **\$50,000** per account. Requests for amounts above this limit must be submitted in writing and must include a Medallion Signature Guarantee.

During periods of heavy market activity or other unusual conditions, you may experience difficulty reaching the Fund or its Transfer Agent. Please allow additional time to place your transaction. The Fund or its Transfer Agent will not be held liable for any loss if you are unable to reach them to place a telephone transaction.

The Fund and its Transfer Agent use reasonable procedures to verify the authenticity of telephone instructions. These may include requiring an account number, a personal identification number (PIN) if applicable, recording of calls, and/or written confirmations. If these procedures are followed, neither the Fund nor its Transfer Agent will be responsible for any loss, liability, cost, or expense arising from unauthorized or fraudulent telephone instructions.

The Fund and its Transfer Agent use reasonable procedures to verify the authenticity of telephone instructions. These may include requiring an account number, a personal identification number (PIN) if applicable, recording of calls, and/or written confirmations. If these procedures are followed, neither the Fund nor its Transfer Agent will be responsible for any loss, liability, cost, or expense arising from unauthorized or fraudulent telephone instructions.

If you own an IRA, you will be asked to make an election regarding federal and applicable state income tax withholding at the time of a redemption.

For your protection, telephone redemptions may be restricted for **30 calendar days** following a change of address or banking information. The Fund may also require a signature guarantee or other documentation for certain transactions.

The Fund reserves the right to modify, suspend, or terminate the telephone transaction privilege at any time, with or without notice.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: A fee of \$15 will be charged for each wire transfer of redemption proceeds. This fee will be deducted directly from your account and is subject to change without notice. Your bank or any intermediary institution may also charge a separate fee for receiving the wire. The Fund and its transfer agent are not responsible for any delays or additional fees imposed by the receiving bank or any intermediary institution."

Systematic Withdrawal Plan ("SWP"). Shareholders may redeem shares through a Systematic Withdrawal Plan ("SWP"), which provides for regular, periodic redemptions in accordance with the shareholder's instructions and the transfer agent's procedures. With the shareholder's authorization, the transfer agent will process SWP redemptions in the amount and frequency selected by the shareholder at the Fund's net asset value ("NAV") next determined after receipt of the applicable redemption instructions in good order.

Shareholders may change or terminate SWP instructions at any time by contacting the transfer agent. The Fund and/or the transfer agent may modify, suspend, or terminate the SWP at any time."

Redemptions in Kind

The Fund reserves the right to honor redemption requests by making payment in whole or in part in readily marketable securities ("redemption in kind") if the amount is greater than \$250,000 or 1% of the Fund's assets. The securities will be chosen by the Fund and valued at the Fund's net asset value. To the extent feasible and if in the best interest of all Fund shareholders, redemptions in kind will be paid with a pro rata allocation of the Fund's portfolio securities. A shareholder will be exposed to market risk until these securities are converted to cash and may incur transaction expenses in converting these securities to cash.

Redemption Proceeds

Redemption proceeds are typically sent on the next business day after a request is received in good order. As permitted by federal law, the Fund may delay payment for up to seven calendar days. The Fund also reserves the right to delay payment for shares recently purchased by check or via Automated Clearing House (ACH) until the payment has cleared, which may take up to 10 business days (or longer, if necessary). Proceeds are generally paid by check, wire transfer, or ACH, as elected by the shareholder.

Redemption Requests Good Order

A redemption request will be considered to be in "good order" only if it includes all of the following:

- The name of the Fund and the account number;
- The exact dollar amount or number of shares to be redeemed;
- The name(s) of the registered account owner(s), exactly as they appear on the account;
- Signature(s) of all registered owner(s);
- Any required signature guarantee or medallion signature guarantee, if applicable;
- Any documentation reasonably required by the Fund or its transfer agent to verify the identity or authority of the person(s) requesting the redemption.

Redemption requests that are incomplete, unclear, unsigned, or submitted without the required documentation or signature guarantees may be delayed or rejected. The Fund and its transfer agent are not responsible for processing delays or losses resulting from requests not received in good order.

Medallion Signature Guarantee Requirements

To protect shareholders and the Fund from potential fraud, the Fund and/or its transfer agent (the "Transfer Agent") may require a signature guarantee, including a Medallion Signature Guarantee ("MSG"), in certain circumstances. An MSG is a stamped certification from an eligible guarantor institution that verifies the authenticity of a signature and the authority and capacity of the person signing.

The Fund and/or the Transfer Agent may require an MSG in situations including, but not limited to, the following:

- The redemption amount exceeds **\$50,000** (or such other threshold as may be established by the Fund and/or the Transfer Agent);
- Proceeds are requested to be mailed to an address or sent to a bank account that was changed or added within the past 30 calendar days;
- Proceeds are requested to be made payable to a person or entity other than the registered account owner;
- Proceeds are requested to be sent to a financial institution account that is not in the shareholder's name;
- The account registration or ownership is being changed;
- Instructions are submitted by mail with alternate delivery instructions, special handling, or other non-standard processing; or
- Any other circumstance in which the Fund or the Transfer Agent reasonably determines that documentation or verification is appropriate.

An MSG must be obtained from an eligible guarantor institution that participates in a recognized Medallion Signature Guarantee program (STAMP, SEMP, or MSP). These institutions typically include banks, savings associations, credit unions, and broker-dealers. A notary seal is not an acceptable substitute for an MSG.

Shareholders should contact the Transfer Agent in advance if they are unsure whether an MSG will be required. The Fund and/or the Transfer Agent reserves the right, in its discretion, to waive or require an MSG and to reject any signature guarantee that it deems unacceptable.

Federal and State Income Tax Withholding (IRAs and Other Retirement Accounts)

Distributions from IRAs and other retirement accounts may be subject to federal income tax withholding and, where applicable, state income tax withholding. Federal income tax generally will be withheld from IRA distributions unless you elect otherwise on the applicable request form. If you do not make a withholding election, withholding will be applied in accordance with applicable law and IRS rules. State income tax withholding may also apply depending on your state of residence and applicable state law. Withholding is not a determination of your actual tax liability.

Low Balances

If at any time your account balance in the Fund falls below \$1,000, the Fund may notify you that, unless the account is brought up to at least \$1,000 within 60 days of the notice; your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below \$1,000 due to a decline in NAV.

Exchange: Shares of the Fund may be exchanged without payment of any exchange fee for shares of another Fund (including those in a different prospectus) of the same class at their respective NAV, given that the accounts have the same registration. Minimums to establish or subsequent purchase minimums apply.

Account Statements and Transaction Confirmations: You will receive periodic account statements summarizing all account activity, including purchases, redemptions, exchanges, and any reinvested dividends or capital gains. Additionally, a transaction confirmation will be sent for each financial transaction that occurs in your account, except for those taking place on a recurring basis, such as through an automatic investment plan or for dividend and capital gain distributions. For recurring transactions, the details will appear on your periodic account statement, serving as confirmation for such activity. It is your responsibility to carefully review all transaction confirmations and account statements for accuracy immediately upon receipt. You must contact the Fund or its Transfer Agent in writing or by telephone promptly within 60 days of the date of the statement or confirmation that first reflects the disputed item. If you fail to provide timely notification within this 60-day period, you will be deemed to have ratified all account activity set forth therein, and the Fund and its agents will not be liable for any losses that may result from your failure to report the issue.

Uncashed Checks and Automatic Dividend and Capital Gain Reinvestment

If you elect to receive your dividend and capital gain distributions via check, ACH, or wire, and the distribution amount is \$50 or less, then the amount will be automatically reinvested as additional shares into your account.

For non-retirement and non-educational accounts, any dividend and capital gain distributions sent by check which are not cashed within 180 days will be reinvested into your account at the current day's NAV. When reinvested, those amounts are subject to market risk like any other investment.

Your distribution option will automatically be converted to having all dividends and capital gain distributions reinvested into your account as additional shares if any of the following occur:

1. Postal or other delivery service is unable to deliver mail or checks to the address of record thereby designating your account as "lost";
2. Dividends and capital gain distributions checks are not cashed within 180 days; or
3. Bank account of record is no longer valid.

For non-retirement and non-educational accounts, redemption proceeds sent by check which are not cashed within 180 days will be reinvested into your account at the current day's NAV. When reinvested, redemption proceeds are subject to market risk like any other investment.

Tax Status, Dividends and Distributions

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor, or your investment is in a qualified retirement account). When you redeem your shares, you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income quarterly and net capital gains annually in December. These distributions will be reinvested in shares of the respective Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Cost Basis Reporting: The Fund is required to report cost basis information to the IRS and to shareholders on Form 1099-B for redemptions of "covered shares," which are generally shares acquired on or after January 1, 2012. The Fund's default cost basis calculation method is Average Cost. This method will be applied to your account unless you affirmatively elect a different IRS-accepted method, such as First-In, First-Out (FIFO) or Specific Share Identification. You may make this election for future transactions by providing written instructions, contacting Shareholder Services at 1-877-738-0333, or through your online account portal, where available.

Please note that, in accordance with IRS regulations, the cost basis method elected for the first redemption of covered shares cannot be changed after the settlement of the redemption. The cost basis method you select may have significant tax implications. The Fund is not authorized to provide tax advice. We strongly recommend you consult your tax advisor to determine which method is most suitable for your individual circumstances.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisors to determine the tax consequences of owning the Fund's shares.

Distribution of Shares

Distributor

Northern Lights Distributors, LLC, located at 4221 North 203rd Street, Suite 100 Elkhorn, NE 68022-3474, is the distributor for the shares of the Fund. Northern Lights Distributors, LLC is a registered broker-dealer and member of the FINRA. Shares of the Fund are offered on a continuous basis.

Distribution (12b-1) and Shareholder Servicing Fees

The Trust, with respect to the Fund, has adopted the Trust's Master Distribution and Shareholder Servicing Plans for Class A, and Class C shares (the "Plans") pursuant to Rule 12b-1 of the 1940 Act, under which allows the Fund to pay the Fund's distributor an annual fee for distribution and shareholder servicing expenses up to 0.25% and 1.00% of the Fund's average daily net assets attributable to Class A and Class C shares, respectively. Class I shares have not adopted a Plan. Because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

The Fund's Distributor and other entities are paid pursuant to the Plan for distribution and shareholder servicing provided and the expenses borne by the distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

You should be aware that if you hold your shares for a substantial period of time, you may indirectly pay more than the economic equivalent of the maximum front-end sales charge allowed by the Financial Industry Regulatory Authority due to the recurring nature of distribution (12b-1) fees.

Additional Compensation to Financial Intermediaries

The Distributor, its affiliates, and the Adviser and their affiliates may each, at its own expense and out of its own assets including legitimate profits, provide additional cash payments to financial intermediaries who sell shares of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the Rule 12b-1 fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services the Fund's shareholders. The distributor may, from time to time, provide promotional incentives, including reallowance and/or payment of up to the entire sales charge, to certain investment firms. Such incentives may, at the distributor's discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional commissions.

Householding

To reduce expenses, we mail only one copy of the prospectus and each annual and semi-annual report to those addresses share by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-877-738-0333 between the hours of 8:30 a.m. and 6:00 p.m. Eastern Time on days the Fund is open for business or contact your financial institution. We will begin sending you individual copies thirty days after receiving your request.

Financial Highlights

The financial highlights for the Fund reflects the historical financial highlights of the Predecessor Fund. Upon completion of the reorganization of the Predecessor Fund with and into the Fund, which occurred as of the close of business on February 13, 2026, Class A, Class C and Class I shares assumed the performance, financial and other historical information of the then-existing Class A, Class C and Class I shares of the Predecessor Fund.

Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been derived from the financial statements audited by Cohen & Company, Ltd., the Predecessor Fund's independent registered public accounting firm, whose report, along with the financial statements (which have been adopted by the Fund), are included in the Predecessor Fund's most recent annual report on Form N-CSR, as well as unaudited financial statements (which have been adopted by the Fund) included in the Predecessor Fund's most recent semi-annual report on Form N-CSR.

Appendix A

Oppenheimer & Co Inc. ("OPCO")

Automatic conversion of Class C shares. Class C shares purchased through a platform or account will automatically convert to Class A shares in the month of the 8th anniversary of the purchase date. No sales charges will be imposed as a result of such automatic conversion. Automatic conversions are not taxable events under the Internal Revenue Code of 1986, as amended.

Sales Charge Waiver Policies Applied by Certain Intermediaries

Shareholders purchasing fund shares through certain platforms or accounts are eligible only for the following load waivers (front-end sales charge waivers and CDSC, or back-end, waivers) and discounts, which may differ from those disclosed elsewhere in this prospectus or SAI.

Effective March 1, 2019, shareholders purchasing fund shares through a platform or account will be eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in the Fund's prospectus or SAI.

Front-end sales load waivers on Class A shares

- Shares purchased in an investment advisory program.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family).
- Employees and registered representatives of a platform or its affiliates and their family members as designated by a platform.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement).
- A shareholder in the Fund's Class C shares will have their shares converted at net asset value to Class A shares of the Fund if the shares are no longer subject to a CDSC and the conversion is in line with the conversion policies and procedures of a specific platform.

CDSC Waivers on Classes A and C shares available on a platform

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's prospectus.
- Return of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 70½ as described in the fund's prospectus.
- Shares sold to pay platform fees but only if the transaction is initiated by a platform.
- Shares acquired through a right of reinstatement.

Front-end load discounts available on a platform: breakpoints, and/or rights of accumulation

- Breakpoints as described in this prospectus.
- Rights of accumulation which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household on a platform. Eligible fund family assets not held on a platform may be included in the rights of accumulation calculation only if the shareholder notifies his or her financial advisor about such assets.

Front-end Sales Load Waivers on Class A Shares available at OPCO

- Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan
- Shares purchased by or through a 529 Plan
- Shares purchased through a OPCO affiliated investment advisory program
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family)
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same amount, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Restatement).
- A shareholder in the Fund's Class C shares will have their shares converted at net asset value to Class A shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the conversion is in line with the policies and procedures of OPCO
- Employees and registered representatives of OPCO or its affiliates and their family members
- Directors or Trustees of the Fund, and employees of the Fund's investment adviser or any of its affiliates, as described in this prospectus

CDSC Waivers on A, B and C Shares available at OPCO

- Death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in the Fund's prospectus Return of excess contributions from an IRA Account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 70 ½ as described in the prospectus
- Shares sold to pay OPCO fees but only if the transaction is initiated by OPCO Shares acquired through a right of reinstatement

Front-end load Discounts Available at OPCO: Breakpoints, Rights of Accumulation & Letters of Intent

- Breakpoints as described in this prospectus.
- Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at OPCO. Eligible fund family assets not held at OPCO may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets

Wells Fargo Clearing Services, LLC and Wells Fargo Advisors Financial Network, LLC (collectively, "Wells Fargo Advisors")

Wells Fargo Clearing Services, LLC operates a First Clearing business, but these rules are not intended to include First Clearing firms.

Effective April 1, 2026, Clients of Wells Fargo Advisors purchasing fund shares through Wells Fargo Advisors are eligible for the following sales charge discounts (also referred to as "breakpoints") and waivers, which can differ from discounts and waivers described elsewhere in the prospectus or statement of additional information ("SAI"). In all instances, it is the investor's responsibility to inform Wells Fargo Advisors at the time of purchase of any relationship, holdings, or other facts qualifying the investor for discounts or waivers. Wells Fargo Advisors can ask for documentation supporting the qualification.

Wells Fargo Advisors Class A share front-end sales charge waivers information.

Wells Fargo Advisors clients purchasing or converting to Class A shares of the fund in a Wells Fargo Advisors brokerage account are entitled to a waiver of the front-end load in the following circumstances:

- Wells Fargo Advisors employee and employee-related accounts according to Wells Fargo Advisor's employee account linking rules. Legacy accounts and positions receiving affiliate discounts prior to the effective date will continue to receive discounts. Going forward employees of affiliate businesses will not be offered NAV.
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same fund.

WellsTrade, the firm's online self-directed brokerage account, generally offers no-load share classes but there could be instances where a Class A share is offered without a front-end sales charge.

Wells Fargo Advisors Class 529-A share front-end sales charge waivers information.

Wells Fargo Advisors clients purchasing or converting to Class 529-A shares of the fund through Wells Fargo Advisors transactional brokerage accounts are entitled to a waiver of the front-end load in the following circumstances:

- Shares purchased through a rollover from another 529 plan.
- Recontribution(s) of distributed funds are only allowed during the NAV reinstatement period as dictated by the sponsor's specifications outlined by the plan.

Wells Fargo Advisors is not able to apply the NAV Reinstatement privilege for 529 Plan account purchases placed directly at the fund company. Investors wishing to utilize this privilege outside of Wells Fargo systems will need to do so directly with the Plan or a financial intermediary that supports this feature.

Unless specifically described above, other front-end load waivers are not available on mutual fund purchases through Wells Fargo Advisors.

Wells Fargo Advisors Contingent Deferred Sales Charge information.

- Contingent deferred sales charges (CDSC) imposed on fund redemptions will not be rebated based on future purchases.

Wells Fargo Advisors Class A front-end load discounts

Wells Fargo Advisors Clients purchasing Class A shares of the fund through Wells Fargo Advisors brokerage accounts will follow the following aggregation rules for breakpoint discounts:

- Effective April 1, 2026, SEP or SIMPLE IRAs will not be aggregated as a group plan. They will aggregate with the client's personal accounts based on Social Security Number. Previously established SEP and SIMPLE IRAs may still be aggregated as a group plan.
- Effective April 1, 2026, Employer-sponsored retirement plan (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans) accounts will aggregate with other plan accounts under the same Tax ID and will not be aggregated with other retirement plan accounts under a different Tax ID or personal accounts. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, SIMPLE IRAs, SAR-SEPs or Keogh plans.
- Gift of shares will not be considered when determining breakpoint discounts

Who we are	
Who is providing this notice?	Northern Lights Fund Trust II
What we do	
How does NLFT II protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.
How does NLFT II collect my personal information?	We collect your personal information, for example, when you • open an account • give us your income information • provide employment information • provide account information • give us your contact information We also collect your personal information from others, such as credit bureaus, affiliates, or other companies.
Why can't I limit all sharing?	Federal law gives you the right to limit only • sharing for affiliates' everyday business purposes—information about your creditworthiness • affiliates from using your information to market to you • sharing for nonaffiliates to market to you State laws and individual companies may give you additional rights to limit sharing.
Definitions	
Affiliates	Companies related by common ownership or control. They can be financial and nonfinancial companies. • <i>NLFT II has no affiliates.</i>
Nonaffiliates	Companies not related by common ownership or control. They can be financial and nonfinancial companies. • <i>NLFT II does not share with nonaffiliates so they can market to you.</i>
Joint marketing	A formal agreement between nonaffiliated financial companies that together market financial products and services to you. • <i>Our joint marketing partners include other financial service companies.</i>
